

How Home-Start helps families in your community: a guide for providers of local services

Home-Start offers one to one, personalised support for parents with children under five; reaching out to families at risk of social exclusion, including those who do not engage with other services.

Home-Start places trained volunteers alongside parents. Support is tailored to the individual needs of each family and is provided for as long as the family needs it.

Volunteers are managed and supervised by their local Home-Start scheme which is in turn supported by Home-Start UK; a community resource with all the benefits of a strong national organisation.
